

# Political Islam

Adopted From Dr. Bill Warner's Books

**Part 2 Mohammed**--If you know **Mohammed**, then you know Islam. If you do not know Mohammed, you do not know Islam. Every Muslim's **life goal** is to imitate Mohammed in every detail. Mohammed led a fascinating life—he was a businessman, prophet, politician and warrior. His greatest invention was a political system that can make all others submit. There have been many great leaders over the course of history---Julius Caesar, Alexander, Napoleon. But, no one today is being killed for any of these leaders yet, somewhere in the world today scores are being tortured, beheaded, destroyed for Mohammed.

Islam begins and ends with Mohammed. The Koran speaks nearly **100** times to follow the life example of Mohammed. And since we have a great amount of information about his life (Sira is 800 pages and the Hadith) we have no excuse for ignorance as an apologist. You do NOT become a Muslim by worshipping Allah. You become a Muslim by imitating Mohammed—how **he** worshipped Allah! The Koran alone will not do. It is the Sunna (Mohammed's way of doing things) that makes you a Muslim. We find this way of doing things in the Sira and Hadith. Mohammed was the perfect husband, father, general, king, etc.

Have you ever noticed many of the strict Islam leaders yell a lot--appear angry. That is because Mohammed was easily angered and they are copying his lifestyle. You can tell if someone really understands Islam because they speak much more of Mohammed than they do the Koran.

## **Summary of Life of Mohammed**

- >Orphan as a child, lived in Mecca
- >Business man with caravan trading with Syria became prosperous, well respected, peacemaker
- >Very religious took many sabbaticals to prayer in the wilderness
- >Started to hear a voice and saw a vision completely changed him—he was chosen to represent the God of all the Universe (later named Allah)
- >Returned to Mecca to preach his vision principles but caused much anger because very aggressive. Stayed until his protector uncle died. Then moved to Medina.

**Vision Principle 1 Submission**—do exactly as I say and do for Paradise. So, basically condemned all previous generations.

**Vision Principle 2 Duality**—there are Muslims and there are Kafir

>In Medina became politician and warrior, more aggressive. Everything changed with the tool of Jihad. Jihad raised vast sums of money. Medina originally half Jewish was soon non-Jewish after the confiscation of their money. He soon ruled all of Saudi Arabia killing all kafir and destroying their religious objects. At the end of his life he turned toward Syria to eradicate all Christians and Jews.

There are actually two Mohammeds. The religious-preacher Mohammed and the aggressive warrior-politician Mohammed. There are two Korans, the religious and the political. *“Mohammed the religious man was not much of a success at all, but Mohammed the political man, and the warrior, was overwhelmingly successful. In the last nine years of his life he averaged an event of violence every six weeks. By this process of constant warfare he became the first ruler of all of Arabia.”*

We might use a measure of how many people killed to indicate the success of a tyrannical leader. Mao Tse Tung in his lifetime killed or starved 40 millions. Stalin killed 50 million. It is believed that Mohammed killed **270** million in his lifetime. That is three time Mao and Stalin combined.

Mohammed was also a very intolerant man prone to quick anger. He would have people killed for criticizing him, from men to little dancing girls. He used jihad to accumulate mass wealth. It is interesting that before Mohammed, Saudi Arabia was very tolerant religiously, home to some **300** plus faiths. His intolerance/anger is to be copied which is why in some countries to tell a joke about Mohammed carries a death penalty and people died over Danish cartoons. Remember to be a Muslim is to completely copy the lifestyle of Mohammed. Beginning to see why modern jihadists act as they do--- angry, intolerant, destruction of kafir religious objects, etc.
