

Political Islam

Adopted From Dr. Bill Warner's Books

Part 3—The 5 Pillars of Islam

1. **Confession**---shahada---There is no god but Allah and Mohammed is his prophet.
 2. **Almsgiving**—zakat---This is only dispersed to Muslims (no Kafir) or support jihad (war against Kafir).
 3. **Prayer**---salat-- 5 times daily.
 4. **Pilgrimage**--Hajj---At least one trip to Mecca required during life.
 5. **Fasting** (especially during Ramadan)---sawm---No food or drink while sun is up.
- (6) **Jihad**—war/struggle against Kafir. It is a pillar since it is **required** of all Muslims. However, it does not have to involve a sword, gun or bomb. Jihad can be done with the sword, with the mouth, with a pen and with money. It is my opinion that our president is a Muslim and is using his office and power as jihad---to battle against a kafir nation founded as a kafir nation. This is the political aspect.

The Koran spends most of its time dealing with the kafir. The kafir are headed for hell. Not because of **any immoral act**, such as murder or stealing, but because they denied Mohammed his place as the prophet of Allah. Kafir go to Hell NOT because of moral shortcomings but intellectual dissent.

Also, Islam does NOT have a Golden Rule. There is only Muslims and kafir—no brotherhood of humanity. Islam means submission or surrender. The idea is you surrender to the will of Allah and he grants peace and safety. This is where the deception and apologist get by saying “Islam is a religion of peace.” But, for the kafir it is either submit or be destroyed. Again, this forced submission is political.

Islam, through jihad, has been the most consistently growing religion ever. Only two times has it retreated. Once in 1492 in Spain and again in 1683 in Eastern Europe. Democracy is fairly new and hard to implement and even harder to maintain. Islam is 1400 years old and is easy to implement. Once it controls a nation that nation never goes away from Islam, Spain being the only exception. To move back away from Islam means an outside force has to kill all Muslims in the area or militarily drive all of them out, not just a change of rulers. All of this is very political, not religious. It is a phenomenally successful political ideology.

Now we can see the foolishness of our recent Presidents trying to change an Islamic nation by changing its rulers and trying to implement democracy. That approach, especially by President Bush 2, was doomed to fail because he does not understand Islam as a political ideology, he sees it as a religion (of peace) and probably equates it to Christianity style religion that simply has a Koran instead of the Bible. You see, there are no rules for jihad against the kafir. You can have a purple finger or tell white or black lies if it furthers the cause of Allah and it is not immoral it is celebrated.

Another thing we kafirs need to understand is that a kafir is basically a kafir. Whether a kafir is a Buddhist or an atheist is no never mind to an Islamist and will not be treated differently. They are equally evil because they deny Mohammed's prophet status, Allah and the Koran. Remember kafir is a political term. They religiously categorize definitions such as polytheist and infidel. Infidel is a religious term and applies mainly to Christians and Jews. That is why for this study we use kafir. And it is amazing that the kafir are not the least bit interested in understanding Islam.

Also, Islam is a **complete civilization**. They have their Sharia law, religion and political system and structure. They do not need the kafir and are bent on destroying them. That is why many national leaders are drastically failing by thinking that if they appease Muslims that those Muslims will feel more gracious toward them. Wow, those national leaders are dead wrong. Those Muslims coming into Europe will eventually turn and destroy the kafir. They are **commanded** to do so. They do not care what method of form the destruction takes. They must be laughing inside at the foolishness of world leaders today that are basically committing political suicide. They are helping the jihad against themselves. Or like some of our leaders are they already **secretly committed** to Islam?

Furthermore, that is why when Islam takes over a nation it totally removes all **vestiges** of any other religion(s) that were present there. Egypt is a prime example. Now that Islam has take over Egypt all traces of Christianity and even their original civilization has been removed or destroyed. Why? Because the Koran commands it? NO! **Because Mohammed did it that way**. Are you catching on?

In sum, *"The basics of Islam are the Five Pillars, jihad, submission, duality and the Kafir. Once you understand those words, you can understand how Political Islam has annihilated civilizations for 1400 years."* (Warner, Bill. A Self-Study Course on Political Islam, Level 1 (p. 18).
